THE ALL NEW SPECIMEN BAG

TearZone™

Step 1

Technician places specimen into the front zipper pocket marked "Specimen Only" and zips the bag closed.

Patient paperwork is placed in the back pocket marked "Paperwork Only."

Step 2

When the laboratory technician receives the specimen, the bag is easily torn open at the TearZone® no perfs, no blades!

Step 3

The specimen easily comes out of the bag protecting the lab technician, specimen, and paperwork!

TearZone® Specimen Bags are:

- *Easy to load*
- *Safer to dispense*
- *Packed in convenient dispenser packs*
- *And, low cost !*
